GROUP-A

Answer any two questions

10×2 = 20

1. A and B are two partners sharing profit and losses in the ratio of 3:2. On 31.12.2019 their capital accounts stood at Rs. 55,000 and Rs. 45,000 respectively after distribution of net profit of Rs. 15,000 and due consideration of drawings of the partners for Rs. 6,000 and Rs. 4,000 respectively. After closing the books following discrepancies were discovered:

- (i) An item in the inventory was valued at Rs. 12,800 but had a realistic value of Rs. 8,300.
- (ii) Rs. 2,400 paid for insurance premium for the year ending on 31.3.2020 had been debited to profit and loss account.
- (iii) Interest on capital at 5% on partners' capital as at the beginning of the year and interest on drawings of partners at 8% p.a. were left out of consideration.

Ascertain the correct net profit of the firm and redistribute the profit by preparing a profit and loss of appropriation account and determine the balance of partners' capital accounts.

2. Ram, Rahim and Joseph are partners sharing profits and losses as 5:3:2. Their Balance Sheet on 31st March, 2020 is as follows :

Liabilities	Rs.	Rs.	Assets	Rs.
Capital A/cs:			Building	20,000
Ram	8,000		Machinery	12,000
Joseph	2,400		Furniture	6,400
		10,400	Stock	8,000
Ram's Loan		8,000	Debtors	6,800
Creditors		40,000	Rahim's Capital	5,200
		58,400		58,400

As all the partners are declared insolvent the firm is dissolved. Rs. 24,000 is realized from the sale of all assets. Realisation expenses are Rs. 1,200. A sum of Rs. 2,000 is received from Rahim, but Ram and Joseph are unable to contribute anything.

Prepare necessary accounts for dissolution of the firm.

3. Shri Kaushik sales two products manufactured in his two factory. The goods are made in two departments A and B for which separate set of accounts are maintained some of the manufacturing goods of department A are used as raw material of department B and vice versa.
From the following particulars you are required to ascertain the total cost of goods manufactured in department A and B:

	Department A	Department B
